Summary

Full-Stack Developer with hands-on project experience building responsive web applications using JavaScript, React.js, Node.js, Express.js, HTML5, CSS3, and REST APIs. Experienced in frontend and backend development, API integration, and client-server architecture. Developed projects including an E-Commerce Shopping Cart & Social Media Application. Strong problem-solving skills with a foundation in Python, C++, and software development.

Technical Skills

Languages

C, C++, Python, JavaScript (ES6+), HTML5, CSS3

Developer Tools

Git, GitHub, VS Code, Linux

Frontend Development

HTML5, CSS3, React.js, Responsive Web Design

Backend Development

Node.js, Express.js, RESTful APIs, JSON, Client-Server Architecture

Database

MongoDB / MySQL

Certifications & Accomplishments

Fundamentals of Artificial Intelligence

2025

Advanced framework deployment, optimization models, and AI systems

Operating System Fundamentals

2024

Memory allocation algorithms, process scheduling, and kernel architectural maps

HackerRank Certification

Achieved 5-Star Coder status in Problem Solving and Advanced Python Development.

Education

Mepco Schlenk Engineering College, *B.E. in Electronics and Communication Engineering*
2023 – 2027 | Sivakasi, Tamil Nadu
CGPA: 6.90 / 10 (till 6th sem)

C.D. Higher Secondary School,
Higher Secondary Certificate (HSC)
2022 – 2023 | Puliampatti, Tamil Nadu
82.5%

Projects

E-Commerce Shopping Cart,
Full-Stack Web Application
2026 – 2026

Developed a full-stack e-commerce shopping cart application focused on building a responsive web interface and implementing core shopping-cart functionality.

Social Media Application,
React.js | Node.js | Express.js | REST APIs
2026 – 2026

Developed a full-stack social media application with an interactive frontend, backend services, and core social networking functionality.

Real-Time Weather & Media Web Application,
React.js | Node.js | REST APIs | CSS3
2026 – 2026

Built responsive web applications integrating OpenWeatherMap and OMDb REST APIs with asynchronous data handling, query debouncing, dynamic routing, and error-state management.

Internship

Winter Intern – Space Technology & Embedded Systems, *India Space Lab*

2024 – Present | Hybrid

Studying satellite telemetry transmission protocols, embedded flight architectures, and real-time sensor calibration.
